

It's cold outside but we're cheerful inside because of the fresh arrival of new products to our warehouse! Cap converters for those awkward lamp compatibility situations, Forest Green colour braided flex reminding us that Spring is just around the corner, Gold Bling phenolic E27 & E14 lampholders, new Large sizes of UK and Euro shade carriers, new-style Inline dimmers for those Floss & Kartel repairs, handy half inch all thread now in longer 50mm lengths, well off-the-beaten-track Transparent foot dimmers to really make the 'look' different and lastly some new handy washers. Phew! That was a long sentence. Now I've finished my pitch, have a think about our new items and take a look at our catalogue or website and stock up!

That's it for now - all the best for the New Year.
