

PROTECTIVE SCREENS AND  
SOCIAL DISTANCING PARTITIONS  
FOR THE WORKPLACE OF TOMORROW

## HERE TO SUPPORT YOUR BUSINESS

**It's safe to say our workplaces and businesses have changed beyond recognition.**

Many companies have had to adapt to new working practices, procedures and technology overnight.

Yet while the changing business landscape might be uncertain, what we do know for sure is the safety and security of staff and our customers is always going to be of paramount importance. This is where we hope to help.

Introducing SANIQUE. A business dedicated to producing quality safety and sanitising equipment for the workplace of tomorrow. We specialise in manufacturing and supplying protection screens, social distancing partitions and high-quality sanitising sprayers for use in retail, commercial and medical working environments within the UK and the rest of the world.

## ABOUT SANIQUE

**Here at SANIQUE, we have over 20 years of industry experience and we wanted to put it to good use.**

So, our plan is simple: to help businesses and organisations by streamlining this difficult transitional period. Our innovative range of safety and sanitising equipment is manufactured in the UK and can be configured to suit your business's needs.

So, whether you need a queue management system, protection screens at points of regular interaction, or you need to fully sanitise existing fixtures and fittings, SANIQUE screens, partitions and sanitising sprayers are up to the job every time.

**For more information, contact the SANIQUE team today on 03330 150701 or email [mail@sanique.co.uk](mailto:mail@sanique.co.uk)**

**"We've invested in a protective screen at the till point to help our customers, and our team, feel safe in the work environment"**

**ISABEL, ELLA'S TOY SHOP**

## PROTECTIVE SCREENS

Keep your service staff safe with SANIQUE Protective Screens, creating a hygienic barrier between your staff and customers at the till point.

03330 150701  
mail@sanique.co.uk  
[www.sanique.co.uk](http://www.sanique.co.uk)

### Protect your staff:

A secure and clear protective screen at till points provides a hygienic barrier whilst allowing minimal customer interaction.

### Avoid contamination:

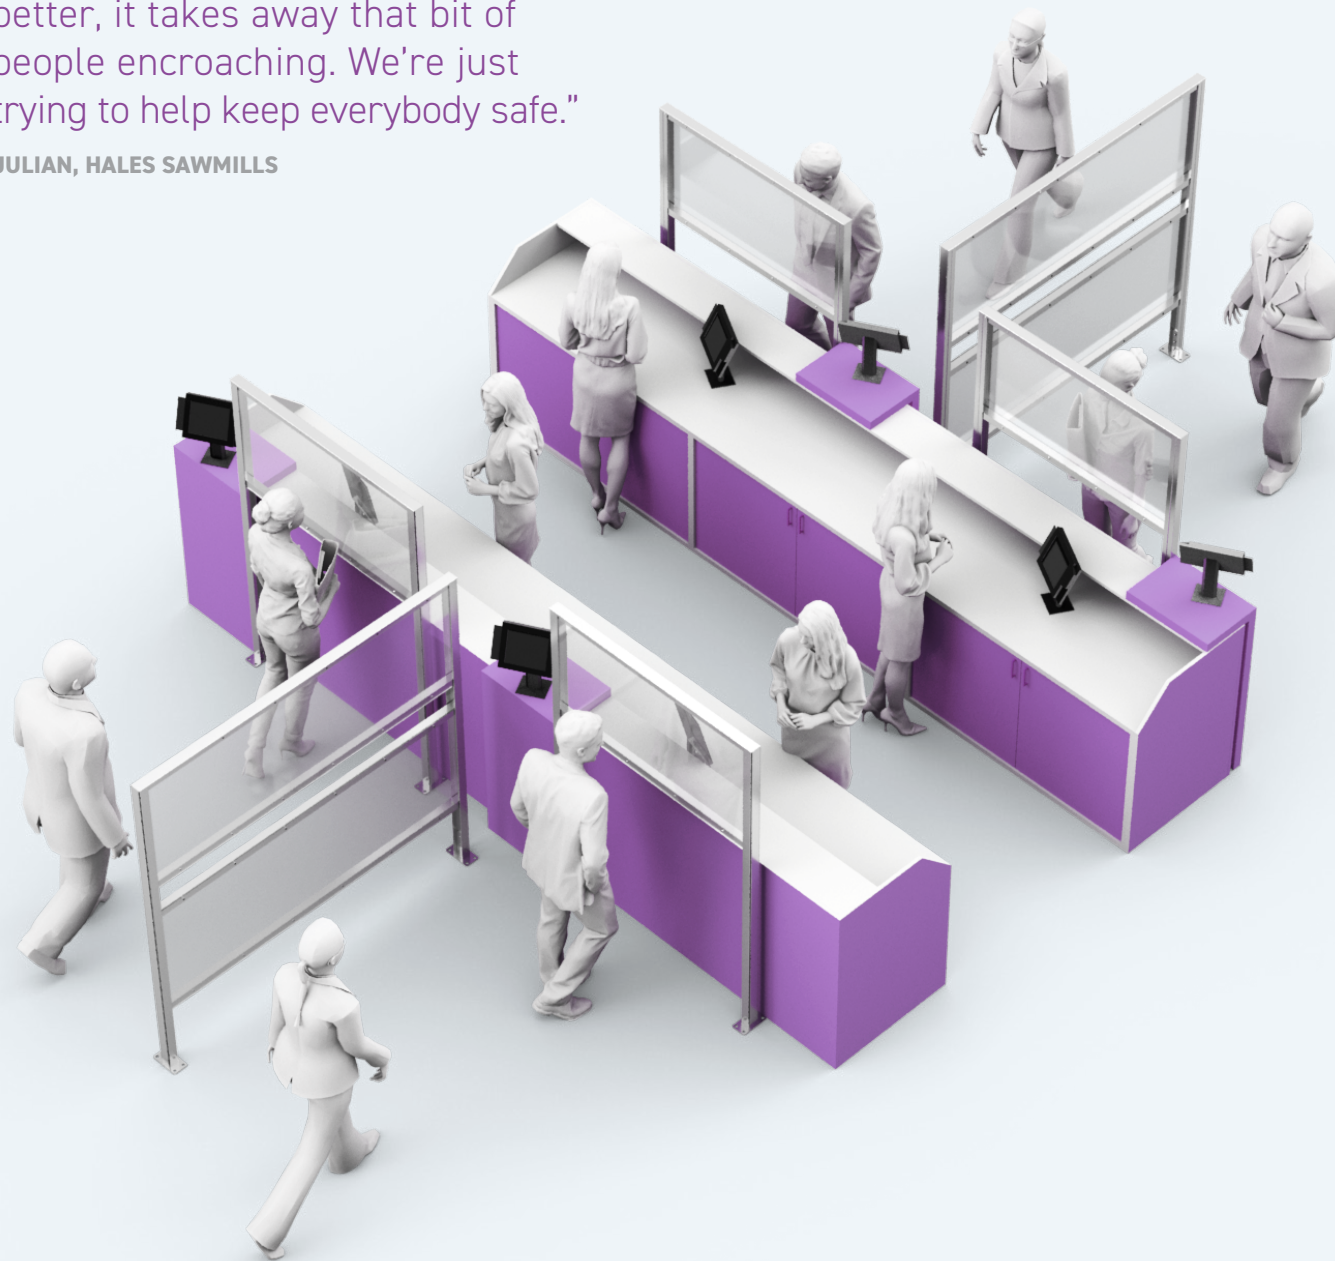

Easy-to-sanitise screens help avoid accidental contact and aerosol contamination from sneezes and coughs.

"When customers are in here they do feel safer...my staff feel much better, it takes away that bit of people encroaching. We're just trying to help keep everybody safe."

JULIAN, HALES SAWMILLS

## S O C I A L D I S T A N C I N G P A R T I T I O N S

Creating hygienic barriers with SANIQUE Social Distancing Partitions to enable your business to safely operate whilst protecting your staff and customers.

mail@sanique.co.uk  
www.sanique.co.uk

### Protect your customers:

Easy-to-sanitise partitions allow customers to maintain safe social distancing between queues.

### Enhance queue management:

Safely re-introduce parallel queues and snake or serpentine queue formations to increase customer throughput in confined areas.

## PRODUCT BENEFITS

Contact the team at  
SANIQUE today to find  
out how we can help  
support your business.

### Quick to assemble:

We have a range of pre-cut formats and components that can be quickly and easily assembled with screws and bolts. All fixings required are provided.

### Attractive:

Made with easy-to-sanitise 8mm Perspex and powder-coated galvanised steel, screens are available in either a silver or white finish to blend in with your retail environment.

### Strong and secure:

Permanent and semi-permanent screens can be bolted to the ground, flexible screen solutions can be built on slim-line free-standing plates. Screens are made from solid 8mm thick Perspex. Posts, cross rails and caps are made from galvanised steel, providing strength yet lightweight.

### Easy-to-sanitise:

Perspex and steel can be quickly sanitised with a spray and wipe down. In the current climate this should be actively done every two hours.

### Recyclable:

Our steel posts, cross rails and caps are 100% recyclable at end-of-life.

### Made in the UK:

All structural components are made in our manufacturing facility in Birmingham, UK.

**ORDERS BEING TAKEN TODAY. DELIVERY TIMES  
WILL BE CONFIRMED AT POINT OF ORDER.**

Our selection of permanent and semi-permanent screens can be bolted to the ground, or mobile screens can be built on slim-line free-standing plates.

Our strong and robust posts and caps are made from galvanised steel in the UK which is not only lightweight but 100% recyclable at end-of-life.

Screens are made with solid 8mm thick Perspex and both post and screen can easily be sanitised.

All screens come with a fixed footing included in the price. Please note, fixings for bolting to the floor are not provided. We would, however, recommend SITEMATE M10 Concrete bolts (or similar) are used.

ALL FIXINGS REQUIRED  
FOR BUILDING THESE  
SYSTEMS ARE  
PROVIDED
