

Datasheet – Lampfix Product 05182

Ceramic Low Voltage Lampholder G4/GU5.3 Rear Push in Entry

Material:	Natural Ceramic
Fixing:	Face fix
Width:	17mm
Height:	10mm
Colour:	Natural

Construction

The G4 lampholder has been designed for applications where a repair or replacement is needed on a low voltage halogen downlighter. The body is made from ceramic material to produce a high quality, durable and heat resistant product. Cabling connection is achieved via the rear of the lampholder to push in terminals.

Applications

Downlighters

Some decoration G4 Low Voltage light fittings
